1. The following is an examiner's statement of reasons for allowance: the primary reason for allowance is that none of the prior art teaches or suggests employing a combination of a phenolic resin in the claimed amount with an acrylic polymer in the claimed amount to impregnate a paper layer in a laminated board having the claimed structure

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The drawings filed on 7/8/03 are acceptable subject to correction of the informalities indicated. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

3. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
